WORK EXPERIENCE

Php Developer (Internship)   February 2023 - July 2023
Digitaal INC.   USA

- Demonstrating ability to work with a team of seasoned designers across UI and UX to quickly prototype ideas and contribute to growth initiatives for the company.

- Successfully developing interactive web applications using a dynamic scripting language like php, Laravel, and Ionic to develop/design application.

- Interacting with client to gather requirement, analyzed ideas and developed functionality accordingly within stipulated deadline.

- Proffering solution driven ideas to client on projects, made available reports with status updates and improvement recommendations to achieve set objective.

- Collaborating with project management, digital marketing, and design team on bringing concept to life by creating responsive computer and mobile-ready websites using established techniques in HTML, PHP, and Java Script.

Tech Lead (Contract)   August 2022 - Present
Softnet Professional Services Limited   Lagos State, Nigeria

- Developing and executing design strategies for business solutions resulting in increased revenue by 40% and client satisfaction by 60%.

- Leading a team of software developers in the design, development, and support of both new and existing software products and systems; reporting status, monitoring issues/problems and recommending action plans.

- Collaborating with back-end and client engineers to help build features and solve creative problems.

- Reducing process lags by efficiently managing teams and administering training on the job for best practices to save time and ensure project fit.

- Coordinating with and managing third-party vendors for various large-scale projects.

PHP Developer (Internship)   February 2022 - July 2022
BitsPlease   Lagos State, Nigeria

- Boosted client satisfaction by 30% through demonstrated leadership, teamwork, accountability and excellent communication skills in communicating product benefit to customers.

- Took over a failed project and helped company with a successful launch of the current with emphasis on regaining client confidence which was achieved through routine scrum meetings and weekly review meetings to discuss product status and development.

- Learned how to customize a new, mostly undocumented version of Apps, based on learning the source code and the new framework it used by collaborating with Product Manager and UI/UX designers on the task at hand, and carrying out necessary updates. Also, submitted tasks within given deadline.

- Developed, tested and maintained HTML5-based accessible and mobile applications to deliver client content to devices without Flash support.

- Researched, tested, and implemented php and JavaScript framework version of content delivery application to provide cross-platform delivery on enabled device.
